

Prof. ADAM OLIVER

adam.oliver@versaconsults.com

OIL & GAS CONSULTANT with a proven track record in providing strategic guidance to energy industry clients. Specialized in optimizing operations, enhancing safety protocols, and driving cost-effective solutions. Expertise in regulatory compliance, risk management, and implementing innovative technologies to maximize efficiency.

Experiences:

- Projects Director, Oil & Gas Consultant, Safety Compliance Implementation for Oil Rig Operations, London, England.
- General Manager, Oil & Gas Consultant, Optimizing Downhole Tools for Increased Well Productivity, Berlin, Germany.
- Oil & Gas Sr. Consultant, Risk Assessment and Mitigation Strategies in Pipeline Projects, Berlin, Germany.
- Oil & Gas Sr. Consultant, Strategic Planning for Oilfield Decommissioning, Berlin, Germany.
- Oil & Gas Consultant, Integrated Asset Management for Upstream Operations, London, England.
- Oil & Gas Consultant, Feasibility Study for Unconventional Oil Extraction Methods, Berlin, Germany.
- Oil & Gas Consultant, Oil Sands Extraction Efficiency Improvement Project, London, England.

Highlights:

- Spearheaded safety compliance programs, ensuring adherence to industry regulations and minimizing workplace incidents.
- Improved well productivity by optimizing downhole tools and equipment, resulting in increased oil and gas extraction rates.
- Ensured regulatory compliance in refinery upgrades, navigating complex regulatory frameworks to meet industry standards.
- Implemented enhanced oil recovery techniques to maximize production from mature fields.

Education:

- 2002 Ph.D. in Mechanical Engineering, University of Wageningen, Netherlands.
- 1997 M.Sc. in Reservoir Engineering, University of Wageningen, Netherlands.
- 1994 B.Sc. in Petroleum Geoscience, Imperial College London, England.
