

Dr. NOAH BLASER

noah.blaser@versaconsults.com

Accomplished **ELECTROMECHANICAL CONSULTANT** with a comprehensive understanding of both electrical and mechanical systems. Proven expertise in providing strategic guidance on the integration, optimization, and maintenance of electromechanical systems. Skilled in troubleshooting complex issues and implementing cost-effective solutions.

Experiences:

- Project Director / Electromechanical Consultant, Integrated HVAC and Building Management System Upgrade, Milan, Italy.
- Electromechanical Engineering Dept. Manager, Customized Control Systems for Industrial Manufacturing, London, England.
- Electromechanical Sr. Consultant, Renewable Energy Integration in Electromechanical Systems, London, England.
- Electromechanical Specialist, Innovative Robotics Integration in Manufacturing Processes, Milan, Italy.
- Electromechanical Consultant, Remote Monitoring and Diagnostics for Industrial Equipment, Milan, Italy.
- Electromechanical Specialist, Efficient Water Treatment Plant Automation and Control, London, England.

Highlights:

- Demonstrated proficiency in designing and implementing integrated electromechanical systems for various applications.
- Engineered and upgraded HVAC and building automation systems, optimizing comfort, and reducing energy consumption.
- Specialized in designing robust emergency power systems for critical facilities, ensuring uninterrupted operations during power outages.

Education:

- 2007 Ph.D. in Electromechanical Systems Engineering, University of California, USA.
- 2003 M.Sc. in Electrical and Mechanical Engineering, University of California, USA.
- 2000 B.Sc. in Electromechanical Systems, University of California, USA.
